SULPHUR, OKLA.

Editor of Big Sandy News: Will you please send me a sample copy of Big Sandy News? I want to know what the subscription price is fixed to be postmaster at River, Ky., and read the NEWS every time it comes and I like it fine I am the daughter of Peter Daniel of River, Ky., who died May 11th, 1912. I have married an Oklahoma man, we are getting along fine, have a grocery store but times are awfully dull out here. I have been taking the Paintsville Herald ever since I have been out here but I am going to change for I think your paper has more news. We have a nice little city I am well pleased with my new home, I am going to write a piece of poetry about our little city and then close hoping to receive the Big Sandy News next week. The city of Sulphur is a nice little spot.

Where people come to get rid of the ailments they have got. They drink the bromide water. The sulphur water too. And it's really surprising what the water does do. Some folks whose stomachs give them much pain. Come drink of the water and are soon well again. Others who are nervous and easily gripped. Drink of the water and soon are relieved.

And those who are fitful and can not sleep a wink are benefited most by the water I think. When they drink bromide water of drink just a heap of water go right to bed they soon sleep.

The Latest Thing in Stoves

For a midnight supper, as for any other meal at any other time, the very latest thing in stoves—the best that stove-artists can do—is a

New Perfection Oil Cook-stove

It concentrates the heat when you want it and where you want it. It is as quick as gas, steadier and handier than coal, cheaper than electricity.

The New Perfection Stove has long, enameled, heavy-duty chimneys. It is handsomely finished in nickel, with cabinet top, deep shelves, towel racks, etc. Made with 1, 2 or 3 burners.

All dealers carry the New Perfection Stove. Free Cook-Book with every stove. Cook-Book also gives to anyone sending 5 cents to cover mailing cost.

The writer recently heard two farmers talking over the past and recalling their experiences. One of them said, Bill, do you remember our conversation several years ago when we were both in debt for our farm? I told you that I thought the proper thing for us to do was to either borrow money or mortgage our farms and send our children to school. Do you remember your answer? You said, I will do no such thing. I will keep them at home and make them work and we will soon be out of debt. You did keep them at home against my remonstrance. I told you that an education would increase their capacity for making money and that the additional debt would soon be paid. You remember I borrowed the money and sent my boys and girls to school; that they soon were able to teach and that the debt disappeared as if by magic. I soon had cattle and it was not long till we had a bank account. My children still bless me for sending them to school, but where are yours?

As I sat mute listening to these old farmers I thought to myself, what have our good county officials been doing all these years for the sturdy farmer. He has been housed a good part of the year on account of the public highways. He has been an old layseed and almost spat upon by the ones he gave authority to rule him.

The farmers all over this county are demanding roads. It, like the old farmer years ago, the county has to be bonded bond it but build roads. They are the "essence" that open the door to wealth. Without them the farmer must travel in the same old rut year in and year out without a single ray of light to brighten his pathway.

The roads are in the worst condition in this part of the county the writer ever saw them. Mud holes, chuck holes, slips and gutters all you think it is "dangerous to be safe."

Misses Ollie, Bessie and Mervie Neal and Mrs. Ethyl Fannin, daughters of Wm. Neal, a prosperous farmer of Vessie, were here Sunday, the guests of Mr. and Mrs. Frank Thompson.

OUR SCHOOL DEPARTMENT.

Mrs. Cora Wilson Stewart, President of the Kentucky Educational Association will be in Louisa Saturday and Sunday attending the Christian District Sunday school convention and would like to address the teachers of Lawrence county on the subject of the K. E. A. If there is a sufficient number present.

Quite a number of the teachers have not received their last month's pay and as you are required to sign receipts before you receive the last pay, I would suggest that you take advantage of Saturday June 1st, to attend the Sunday School Convention, hear an excellent address from Mrs. Stewart and other noted speakers and you that have not already received your pay can receive it at the same time.

The following is a list of the teachers recently enrolled as members of the K. E. A.:

Miss Hattie Berry; Mr. Jack Thompson; Miss Ruth Norton; Mr. David Adams; Mr. Clarence Stewart; Mr. Hubert Berry; Miss Mayd Smith; Mr. W. M. Byington; Mr. Harmon O'Daniel; Otha Berry; Mrs. Sada Stansbury; Mr. W. S. Boggs; Mr. Chas. Johnson; Mr. A. L. Spencer; Mr. H. S. Dean; Miss Gypsy Burchett; Mr. Hance Vanhorne.

We now have about 35 members enrolled from Lawrence and I trust we can make it 50.

As a result of the Teachers Examination held May 17-18, out of 77 Applicants 29 made first class certificates; 29, second class, 8 third class; 8 failed and three were too young and only entered for their grades.

A SUCCESSFUL CONVENTION.

The Sunday school convention at Torchlight on Saturday, May 25th, 1912, was a success. There was a good attendance and the large crowd shows that the people of that community are alive to the good effect of Sunday schools. The very interesting program was carried out and very much to the delight of the good people present. W. J. Vaughan, O. J. Vaughan, L. M. Coley, J. W. Crites and Capt. F. F. Fries were visiting speakers, and, as everybody knows, who heard them, sustained their reputation as earnest convincing speakers.

Of course J. P. and John McClure, George Brown and W. W. See were there. We have learned to expect them at Sunday school gatherings for they have proven that they are interested in Sunday schools and the welfare of children.

John McClure was elected president and George Brown secretary of the district. Miss Walkinshaw was elected District Treasurer. The next convention will be held at Lower Three Mile.

We want to thank the officers and employees of the Louisa Coal Co. for their many courtesies. The choir for the splendid music rendered, which was enjoyed by all present, Mr. Wm. Cartmel and his many young son, John B. Mr. and Mrs. Chambers, and especially do we want to thank William Marshall for his kindness in loaning his organ.

The dinner prepared by the good women of the vicinity would have gladdened the heart of Dr. Wroten (and he's a judge of cooking). There was everything from fruit to frog legs.

On Wednesday afternoon the house belonging to Mrs. John A. Dills, located just opposite the spoke factory at Happy Hollow, Pikeville was destroyed by fire. It caught from the flue as reported, Sam Wolford, who lived in the house managed to get most everything out.

Salt Lick, May 28.—W. R. Stephens, the pioneer undertaker and furniture man of this section was found dead in his bed this morning when his wife went to awake him.

He has been suffering from dropsy for some time, but for the last week or two was thought to have been considerably improved.

On last Sunday the body of a man who had apparently been dead several weeks was found on Hood's creek, not far from Ashland. The body was lying in the brush and leaves in a flat on the hillside, his clothes on, and his hat lying about ten feet away from his body. The ground was torn up considerably in the neighborhood where the body was found, which gave every indication that a struggle had taken place before his death.

The man's body was badly decomposed, while dogs and other animals had eaten the flesh from his face, and also stripped the flesh from the legs clean to the bone. From papers on the body it was supposed to be that of S. F. Notter, of Prince Anne, Va.

Helps the Farmer to Sell

THE FARMER was worried over the market reports. Cotton was rising. When it reached a certain figure he proposed to sell. The day before it had almost reached his price. What would it bring today?

The farmer needed first-hand information at once. He stepped to his Bell Telephone. The Long Distance connection with the buyer in a distant city informed him that cotton had reached the top figure, and he sold his crop at a handsome profit.

The Universal Bell System enables the producer in remote rural districts to keep in touch with market conditions without the necessity of leaving home.

By the way, have you a Bell Telephone?
